

St Mary's Together Maths Work

Green Class
w/c 13/7/20

As this is the last full week of school and there is only one day (Monday) next week this work includes activities for Monday. You will be continuing to learn about capacity and use your maths skills to add and subtract measures. There are also activities focussing on pictograms and bar charts. To access these videos, all you have to do is click on the link <https://whiterosemaths.com/homelearning/year-3/> and select week 12. I have emailed you all the worksheets to accompany these lessons.

Please don't forget about the other great resources provided that are available to all children by following the links below:

For times tables:

- <https://trockstars.com/>
- <https://www.topmarks.co.uk/maths-games/hit-the-button>

For online lessons:

| | |
|-----------|---|
| Monday | Lesson 1 – Compare capacity |
| Tuesday | Lesson 2 – Adding and subtracting capacity |
| Wednesday | Lesson 3 - Pictograms |
| Thursday | Lesson 4 – Bar charts |
| Friday | Today is the day to practise your times tables. Make sure https://trockstars.com/ |
| Monday | Use your skills from Wednesday and Thursday and collect data and create your own bar chart. Can you compare the number of coloured sweets in a tube of smarties, the colours of toy cars, the number of different coins in your piggy bank, the different colours of cars that pass your house (don't forget you can use a tally chart to help record your data) or any other ideas you may have. |
